From the Chapter Director

The term *lentamente*—slowly—has little to do with Lent—I just couldn't resist playing with the similarity of the two words! Another play on words, from the Italian would be *lent-a-mente*—Lent- to-mind. "These forty days enable us to find, with new awareness, that inner source from which to draw vitality and passion to live discipleship in an ever more radical and prophetic way." (Sr. Mariamma Kunnackal, ASC) Our Savior accompanies us and we accompany our Savior more intently throughout this season.

In retrospect: 'Twas an evening well-spent on Monday, February 20 at St. Peter the Apostle Church in Schulte. Within the context of a chapter meeting, the *Lent-Easter Music Review* by St. Peter the Apostle Choir provided a well-prepared concert of songs for meditation and celebration. Thanks to NPM chapter member Dorsey Burgess and choir. Check our NPM website (under Archives) and Facebook to see and hear the presentation. Our chapter also gained some new members that evening!
